

## Domaine de Rocheigrès

Covering 4,9 hectares of the 660 hectares of the Moulin-à-Vent appellation, the vines are ideally located at the heart of the Rocheigrès single vineyard where, as its name suggests, the granitic parent rock (roche) is visible at the surface of the soil amid the rows of vines. This exceptional and distinctive location uncontestedly defines the profile of these structured, fleshy wines that boast an impressive range of floral aromas.
