

Domaine Long-Depaquit

Château Long-Depaquit is located at the heart of the village of Chablis, in Burgundy's Yonne department. A stroll through the estate's grounds, which boast centuries-old trees and a rose garden, offers a unique, timeless experience.

An exceptional 52-hectare legacy, our vineyards benefit from a sustainable approach to viticulture. Limiting yields and keeping interventions to a minimum during the vinification process help create authentic, mineral, elegant wines. Barrel ageing is used in moderation to best preserve the expression of each terroir.

A new winery was built at the estate in 2014. Not only is it more eco-friendly, it also allows us to continue to improve the quality of our wines by giving them more purity and precision. In each winery in Chablis, Nuits-Saint-Georges, Beaune, Pommard and Moulin-à-Vent, a dedicated team intervenes as little as possible during the vinification and ageing process and tailors wines with a perfect sense of terroir. The same care is taken to the grapes purchased from their partner growers as to the grapes from their own estates. Domaine Long-Depaquit will be certified "organic wine" in 2025.
