PRESENTATION

This Climat's name is said to be derived from the word "perreuse" (stone), which was the name of the ancient Roman stone road that linked Chablis with Maligny, running alongside the base of the modern-day "Preuses" Climat.

The plot is located in the immediate vicinity of our "La Moutonne" monopole. The high planting density of our plot 8,500 vines/ha, encourages competition and results in smaller, very concentrated grapes.

WINEMAKING/AGEING
